SUMMARY

Full-stack developer with hands-on experience building applications using React, TypeScript, Laravel, PHP, and MySQL. Skilled in front-end component development, backend API creation, database design, and system troubleshooting. Experienced in both web and desktop system development, including POS systems and internal tools. Seeking a Mid-Level Full-Stack Developer role to contribute to scalable system architecture, feature ownership, and end-to-end development.

PROFESSIONAL EXPERIENCE

Junior Programmer (Project-Based)   **Apsoft Company - September, 2024 – Present**

- Developed full-stack features using React, TypeScript, Laravel, and MySQL.
- Created reusable UI components and improved interface responsiveness.
- Contributed to backend logic including CRUD APIs and data validation.
- Assisted in requirement analysis, testing, bug fixing, and system optimization.
- Collaborated with the project team to deploy and refine new features.

IT Operations Intern   **Concentrix GIGA Philippines - July, 2017 – August, 2020**

- Supported software deployment and maintenance tasks using SCCM.
- Provided end-user troubleshooting for hardware and software issues.
- Performed data encoding and validation to support internal operations.
- Set up and configured hardware, applications, and network components.

PROJECTS

Point of Sale(POS) System with QR Code   **Thesis - 2024-2025 -VB.NET, XAMPP, MySQL**

- Built a desktop-based POS system with QR code scanning for product lookup and transaction processing.
- Developed the UI and business logic using VB.NET.
- Managed data storage, reporting, and inventory logic using MySQL via XAMPP.
- Implemented receipt generation, user authentication, and secure data workflows.

TECHNICAL SKILLS

- Front-End: React, TypeScript, JavaScript (ES6+), HTML, CSS, Tailwind CSS
- Back-End: Laravel (MVC, Eloquent ORM), PHP 8+, REST APIs
- Database: MySQL, HeidiSQL, XAMPP (Apache, MySQL, PHP)
- Desktop Development: VB.NET (Windows Forms)
- Tools: Git, GitHub, Postman, Vite, Composer, npm
- IT Operations: SCCM, Active Directory, Desktop Support
- General Skills: Debugging, State Management, Responsive UI, Data Handling, Agile/Scrum

EDUCATION

Bachelor of Science in Information System

- Year Graduated: 2018 - 2024
